

# Introduction to Advantage

The only global network infrastructure partner your business will ever need.

Advantage optimizes the entire technology lifecycle from design and sourcing to installation, operations, and expense validation, so you and your teams can focus on core business objectives.

## Real Results

We're invested in achieving your goals, such as reducing expenses, installing new technologies, simplifying tedious activities, or all of the above.

## Zero-Cost Business Case

A tailored roadmap and detailed plan that optimizes savings and improvement across your global network and infrastructure.

## Industry-Leading Service Catalogue

Our team specializes in a variety of telecom solutions, including networking, data centers, cloud services, voice, enterprise mobility, and cybersecurity.

## Quicker Time-to-Value

Advantage's white-glove implementation yields **25% faster install times** compared to industry averages thanks to our proven lifecycle methodology.

## Extensive Provider Network

With access to **more than 1,000 global service providers**, we help you simplify sourcing while maximizing performance and cost savings.

## A Strategic, Long-Term Partner

Advantage serves as **an extension to your team**, managing IT lifecycle activities, freeing your internal resources to focus on key strategic goals.
